- **Databases:** MySQL, Supabase
- **Tools & Technologies:** Visual Studio Code, MS Office, GitHub

PROJECTS

1. Online Food Ordering

A web app that lets users browse menus, place food orders, and make payments online. It includes order tracking and admin management features.

Link- https://github.com/gaurav-ya/foodordering.git

2. Weather Forecast

A simple app that shows real-time weather updates, including temperature, humidity, and conditions for any location using live API data.

Link- https://github.com/gaurav-ya/Weather_Forecasting.git

3. Tic Tac Toe

Created a two-player Tic-Tac-Toe game using HTML, CSS, JavaScript, featuring interactive UI and game logic to detect wins, draws, losses, and reset functionality.
